The Central Inland Capture Fisheries Research Institute, being the premier research facility of India in inland fisheries, the research results emanating from this Institute are sought after by a cross section of the scientific community in India and abroad. However, the results and findings of CIFRI's research projects are scattered in a number of national and international journals, bulletins etc., making their search a tedious task. There has been a consistent demand for compilation of publications by the Institute and its scientists.

Thus, List of Publications 1985-1996 fulfils a long-cherished need for a compilation of research papers, bulletins and other publications, that come out of the research activities of the Institute. This is a sequel to the CIFRI Bulletins 22 and 24, published in the years 1976 and 1986 respectively. The author, subject, taxonomic and serial indices provided at the end come very handy for the readers in locating the references. The entries are arranged year-wise. While the calendar year has been followed in 1986, year has been reckoned as April to March from 1987-88.

I am confident that this document will prove to be a useful reference tool for researchers, teachers and students in their pursuit of R & D activities in inland fisheries.

Dr. M. Sinha
Director
ACKNOWLEDGEMENTS

I am grateful to Dr. M. Sinha, Director, CIFRI for providing the necessary facilities for compiling this document. Dr. V. V. Sugunan, Officer-in-Charge, Project Monitoring & Documentation Section took personal care in improving the content, presentation and getup of this publication. His guidance and active co-operation are gratefully acknowledged. Ms Sefali Biswas, Senior Clerk has done an excellent job in laser typesetting of this document. I wish to place on record my whole hearted appreciation of her effort.
